## Intro

While we believe we are not defined by the spaces that surround us, we aspire to create environments where we can flourish. Our commitment is to create beautiful built-in furniture for your home that is timeless in design, unique to your tastes and built to last a lifetime at a value that will surprise you. Use this book for inspiration as you plan a space that eases your workload with smart design and storage for all that life throws at you.

JAMISON MAPLE PAINTED FLINT

## kitchens

The kitchen is the hub of the home. Beyond creating a beautiful backdrop for life's moments you need an environment that is designed to ease the workload. Whether you choose decorative, traditional, or simple door styles your kitchen can be designed around functionality for a smarter space, from prep through cooking, clean up, and storage.

TOULON MAPLE SUNDANCE WITH CHOCOLATE GLAZE

SULLIVAN MAPLE PAINTED ANTIQUE WHITE WITH CHOCOLATE GLAZE

Upper wall cabinets on the left side, consisting of three tall, narrow doors with a paneled design. Below them are three small drawers with simple metal pulls.

The backsplash area features a white subway tile pattern. Above the stove, a wooden shelf holds a framed picture of a fern, a white pitcher, a white mug, and another white pitcher. Below the shelf, a wooden rack holds several copper and stainless steel pots and pans. A red kettle sits on the stove.

Upper wall cabinet on the right side, a tall, narrow door with a paneled design. Below it is a small drawer.

Lower wall cabinets on the left side, including two large drawers and two smaller drawers, all with simple metal pulls. A central cabinet door is also present. Below the stove is an open shelf containing several stainless steel pots and pans.

Lower wall cabinets on the right side, including a large drawer and a cabinet door, both with simple metal pulls.

A window on the far left side of the image, showing a glimpse of the outdoors and sunlight streaming in.

A patterned rug or mat on the floor, partially visible at the bottom of the image.

DUNCAN RUSTIC ALDER HARVEST WITH CHOCOLATE GLAZE

DUNCAN CHERRY CARBON (top) • RUSTIC CHERRY HARVEST (bottom)

Light gray upper cabinets with recessed panel doors and silver handles.

Light gray cabinet with a pull-out shelf, located above the stove.

A small green plant in a red pot on the countertop.

Two clear glasses on the countertop.

A silver kettle on the stove.

Two glass jars containing nuts or seeds on the countertop.

A basket of oranges on the countertop.

Two potted plants with red flowers on the countertop.

Two white shelves holding dishes, including a yellow bowl, red plates, and mugs.

A round black clock on the blue wall.

A white-framed window on the blue wall.

A white-framed window on the blue wall.

A large, modern silver pendant light hanging from the ceiling.

A vase of yellow flowers on the kitchen island.

White dishes on the countertop.

A loaf of bread on the kitchen island.

Light gray lower cabinets with drawers and silver handles.

A stainless steel oven with a glass door and control knobs.

Light gray lower cabinets with drawers and silver handles.

A kitchen island with a black countertop and light gray cabinets.

Three silver metal bar stools at the kitchen island.

Light wood plank flooring.

5 beverage storage

# wood species

## maple

offers a smooth, closed grain pattern, generally off-white in color with varying tones of light pink and yellow-brown. maple contains a natural resin that causes the wood to turn amber as it ages.

## oak

is characterized by its wide open grain patterns and extreme durability. variations in grain pattern and color, small knots and pin holes are attributes of nature giving oak its distinctive beauty.

## cherry

is a rich and multi-colored hardwood distinguished by its flowing grain pattern. pitch pockets, checks, pin knots and sap wood all occur naturally in cherry wood. color varies from light to deep reddish brown and will darken or mellow with age. this will be more noticeable with natural or light stain finishes.

## rustic cherry

the term rustic refers to using material that presents a more authentic country, rural feel to the cabinetry. the cabinets are designed to include a large amount of character elements in the wood.

## hickory

is known for its strength, open grain and distinctive color variation within each piece of wood. ranging from light to deep brown, hickory's unpredictable color spread is especially noticeable in a natural or light finish, with darker stains mellowing the variation.

## rustic hickory

the term rustic refers to using material that presents a more authentic country, rural feel to the cabinetry. the cabinets are designed to include a large amount of character elements in the wood.

## rustic alder

has a fine, straight-grain pattern and even texture. the color is a light brown with a reddish tinge that stains evenly. rustic alder includes character spots, knots, burls and blemishes which do not affect the product durability.

# glaze and paint

## glaze over stain

glaze is applied over the top of the base stain and then hand wiped for a unique finish. since glazed cabinetry is hand finished, no two doors are exactly the same. this process does not apply to designer finishes.

## glaze over paint and designer finishes

the profiles of doors, drawer fronts and large mouldings are highlight glazed by hand. the highlight glazing affects only the areas where the glaze is applied, the rest of the product does not change color. since glazed cabinetry is hand finished, no two doors are exactly the same.

## painting finishes

offer a classic look for cabinetry and have inherent characteristics that differ from stained cabinetry. please ask your designer for complete details. signed paint awareness form required prior to purchase.

### **National Breast Cancer Foundation**

Mid Continent Cabinetry is a proud sponsor of the National Breast Cancer Foundation.

*Help for Today... Hope for Tomorrow®*

### **At Home in America for almost half a century**

Mid Continent Cabinetry...crafted by your American neighbors.

### **A small contribution can leave a big mark**

Each year, we work with the Arbor Day Foundation to replace trees displaced by our manufacturing, with the goal of replanting 10,000 trees each year. Social responsibility is growing, and we want to be on that forefront.

## FOR THE ENVIRONMENT

We are pleased to have received the Kitchen Cabinet Manufacturers Association Environmental Stewardship Certification.

The Environmental Stewardship Program was developed to enable cabinet manufacturers to demonstrate their ongoing commitment to sound and sustainable environmental practices in the production of their products in areas that impact the environment and their community. Certification is awarded annually through a rigorous compliance review, based on five categories.

These categories are:

- Air Quality
- Product Resource Management
- Process Resource Management
- Environmental Stewardship
- Community Relations

The Environmental Stewardship Program further emphasizes our commitment to established environmental policies, improving waste management, 'green' purchasing policies, recycling and community relations.

### **Environmental Policy Statement**

We are committed to protecting the environment through teamwork and focused leadership. Our objectives include reducing waste released to the environment in forms ranging from office paper to solvents emitted during our finish process. Additionally we are committed to using certified sustainable forest products in the construction of our product when possible.

We have and will continue to work very hard in the prevention of pollution by recycling and maintaining environmental friendly work processes. By doing this we can also achieve cost savings while improving the quality and consistency of our products.

Guidelines followed include:

- We are committed to operate in compliance with all federal, state and local environmental laws. Meeting this commitment requires making environmental protection everyone's responsibility.
- Preventing pollution through the reduction of waste and emissions at the source is a strategy that will always be used. We are committed to engaging employees to identify pollution prevention opportunities.
- Technologies and methods that substitute non or less hazardous materials has been and will continue to be a major focus.
- We will continue in our efforts to reduce, reuse and recycle materials whenever possible.
- We will utilize products from sustainable, managed forest material suppliers whenever possible. In order to promote this we will continually educate our largest suppliers of these purchasing preferences.
